## Problem Statement:

Many students face problem of searching of a college. Many factors like our rank, location, stream comes into picture while we select a college. Here we come up with a scenario where a friend helps another friend to find a college of his interest.

'Find My College' helps you find a appropriate college based on the rank you achieved and your preferred location. It gives you all the details of a college you would like to join.
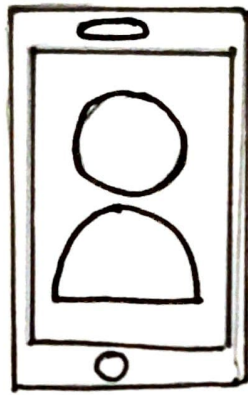

→ Jake here is worried about which college to get into

→ His friend Amy comes to him and suggests him about an app

→ Jake feels thankful for Amy

→ Amy starts explaining about the app 'FIND MY COLLEGE'

→ She explains him about how the app works

→ Jake is happy, knowing the solution for his problem.

# FIND MY COLLEGE

**HELLO.....**

PLEASE ENTER EXAM

ENTER YOUR RANK
